

PRINCE2™* Overview

One-day course for team members working in a PRINCE2™ environment

Overview

This course is aimed at Project Members who need to understand a PRINCE2 project and act in accordance with the PRINCE2 requirements.

It will provide participants with:

- an appreciation of the extent of PRINCE2 in the context of project management
- an understanding of the structure of PRINCE2
- a familiarity with the language and key concepts of the PRINCE2 method
- the capability to fulfil their role as project members in a PRINCE2 environment.

Course Style

This is a one day course with no examination and will blend formal presentation with practical exercises.

Material Provided

- The Essence of PRINCE2
- The PRINCE2 Miniguide
- Course documentation
